To Whom It May Concern

RE: <http://www.ccgeneis.com>

Ccgenesis.com is the corporate web site of ccgenesis, Inc., an eBusiness solutions provider with several major web sites already completed.

Ccgenesis.com represents the company's revolutionary vision of internet-based services and showcases our clients and partners. Studio VISIA is handling the design and user interface of our new company web site and has met and exceeded my expectations with prompt response times and high quality work.

Tom Albers
Web Site Producer
