

April 13, 1999

To Whom It May Concern:

Studio VISIA delivered EAADVISORS.COM using a unique blend of creativity and technical savvy. Studio VISIA was able to deliver the site within the timeframe required without sacrificing quality or functionality.

While the development of the site was in progress I personally interacted with the project managers in charge of the different phases - design and programming. I highly recommend their work as professional, reliable and creative. Using constant communication and feedback, Studio VISIA delivered a site with an optimal blend of visual appeal and functionality. It's rare nowadays to find a team able to deliver both a creative and technically sound solution.

Sincerely,
