RE: GOLDEN TREE COMMUNICATIONS

Golden Tree Communications' solution provides interactive access to local directories and services via PC-based computers placed in areas of public access. The service will include access to Internet browsing, e-mail, entertainment, news and gaming on a fee basis. Studio VISIA is handling the design of the User Interface and human interaction parts of the project.

Sincerely,

A handwritten signature in black ink, appearing to read 'T. Skibinski', with a long horizontal flourish extending to the right.
